Just as the alumni population ages, so also the teacher core from Flaget continues to age as well. Most of the alumni have fond memories of that teacher who gave them extra help or got them thru a long forgotten situation. Some may have not so fond memories of that teacher who invited them to participate in "JUG".

In the museum we keep a photo book of all the brothers, priests, nuns, and lay teachers as well as the coaching and support staffs that worked at Flaget. Today that book is on the table in front of the room for you to browse if desired. If while looking at the book you should notice a mistake, or you know that someone has passed on and I don't have it so noted, please take a second to jot down the information on the sheet, which is also on the table.
