I received the 2021 WLKY Bell Award for building and delivering beds for kids in West Louisville who don't have beds of their own. As of November 10, 2022, we are proud to have built and delivered 627 beds to ZIP Codes west of I-65, neighborhoods where most of us Flaget folks grew up. Below is a list of names of former Flaget students who have helped our efforts by volunteering or donating financially or gifts in kind. As most of you can understand, I probably have forgotten a few names who have helped. If you have helped and are not on the list, please forgive my forgetfulness and give me a call or text on the phone number below and I'll be sure your name is included. If you haven't participated and would like to, please let me know and your name will be included.
